

STUDY ZONES

Fall 2021

The Mike Ilitch School of Business is committed to providing an environment that is conducive to studying as well as being welcoming to all users. The school has a variety of study spaces spread over three floors. Most spaces are conversational study zones and group study zones, and we have one noise-free zone.

CONVERSATIONAL STUDY ZONES

We have several designated study spaces where noise is to be expected and groups are encouraged. Please use these areas to convene and collaborate with your classmates.

ATRIUM: The atrium is a bit noisy, and that's alright with us. The atrium is not a "quiet zone."

COMPUTER LAB, ROOM 327: Closed until further notice.

GROUP ROOMS: There are six group rooms available on a first-come, first-serve basis. Collaboration is welcome in these spaces. Feel free to hold small group meetings. The group room study spaces are scattered all around the second and third floors of the building. They have tables, power outlets and whiteboards. There are a few group room guidelines:

- Priority use of these rooms goes to groups of 3 or more.
- Please limit usage to 2 hours or less.
- Group rooms are meant to support academic study, research and positive group collaborations

SECOND-FLOOR OPEN AREA NEAR ROOM 253: Five high-top tables seat two each for studying.

STICKY SPACES: Scattered all around the first, second and third floors of the building and tucked into various hallways, these spaces operate as informal study areas for students before and after classes. Most of these areas have tables and power outlets.

COURTYARD: Four picnic tables outside the atrium provide an outdoor study area, weather permitting.

STUDY ZONES

Fall 2021

ABSOLUTE QUIET ZONE

Room 365 has been designated as quiet zone. Students are to refrain from eating in this space. This helps create an inclusive space for those who may have food allergies, find certain smells aversive or are sensitive to chewing noise. Students are expected to silence phones, laptops, noisy headphones and other loud devices and are expected to refrain from conversation, talking on phones, audibly listening to music, etc. This room is a silent study space best suited for focused individual study. Quiet is expected at all times. Please respect those studying in this area.
